⚠ WARNING

Tip Over Hazard.

These appliances are top heavy, especially with any doors open, and must be secured to prevent tipping forward which could result in death or serious injury. Read and follow the entire installation instructions for securing the appliance with the anti-tip system before installing door panel kit.

⚠ WARNING

Door Trim Pinch Point

Hazard

Improper installation can lead to a finger pinch point hazard between the side door trim and the cabinets when operating the door, especially with children. To minimize this risk you must follow the installation instructions for cabinet dimensions, trim assembly, and door stop angle.

Installation Instructions

INSTALL STAINLESS PANEL

- Remove bottom hinge cover and retain the 4 T30 Torx screws for later installation.

- With the door fully closed, carefully slide the panel towards the cabinetry with the goal gap of 1/8".

- Open door to 90°. Slide the panel onto the door with the panel brackets interlocking on top and bottom with the door brackets (make sure not to slide the panel into the cabinetry surround). Center the panel on the door, then slowly close the door while watching to make sure the panel does not contact the surrounding cabinetry.

FOLLOW THE REMAINDER OF THE STAINLESS DOOR
